To

The Secretary
The Development Department,
Government of Madras,
Fort St.George, Madras.

Sir,

With reference to the S.I.P.L News dated 14.8.1946, regarding the grant of Import licence which has been relaxed, we beg to apply for an import licence for importation from United Kingdom a complete Factory equipment for the manufacture of Straw Board, Card Board and like articles with a production capacity of 6 tons of Board per day of 24 hours, as per the specification given in the enclosed prescribed application form.

We may be permitted to state in this connection that the above mills was incorporated as a public limited company on 16.4.1946. The company has issued shares of the aggregate face value of Rs.5 lakhs and the Certificate of commencement of business has been obtained on 20.6.1946.

The company has been formed for the purpose of manufacturing straw board, card board, mill board, paste board and like articles. The proposed factory will be erected at Mudim Moodbidri, South Kanara, just on the slopes of the Western Ghats. These ghats are overgrown

P.T.O

with different varieties of reeds in addition to Bamboo and the slopes are overgrown with grasses and straw of the few varieties which are hitherto allowed to waste. These form the main raw materials for the manufacture of different types of boards. These are available within a radius of 20 - 25 miles around the factory site.

The company has already secured the services of an eminent paper expert. In the Province of Madras there are very few board manufacturing Companies.

We request that you may be pleased to grant necessary Import Permit and extreme priorities for the importation of necessary machineries and thus encourage this industry which contributes to a large extent in enriching the district of South Kanara.

Thanking you.

Sir,

Sub: Companies - Purnima Straw Board and Paper Mills Ltd, Application for import of Licence.
Ref: Government Endt. No.65277-P&D IV/46-1 dated 20-9-46 and Government letter No.65277 P&D IV/46-6 dated 7-3-46 addressed to the Chief Controller of Imports, New Delhi.

--

According to para 86 of the report of the paper panel, a factory producing 6000 tons of ordinary types of boards such as straw board duplex, triplex etc per year has been considered to be an economic unit under Indian conditions and that existing factories below this capacity should be encouraged to expand their production to this figure. The production capacity of the Purnima Straw Board and Paper Mills Ltd, is given as 6 tons per day of 24 hours or 2160 tons per year ~~machinery stated to be the production capacity of the said board.~~ They were requested to state their programme in the matter of raising the output to the level of 6000 tons per year and the time in which they anticipated they could attain that objective. From the reply received from the firm(copy enclosed) it is evident that the firm propose to startwith a factory of 4 to 5 tons per day capacity and expand the same to the economic size in a period of 5 years. It is also evident that the firm does not propose to import any machinery at present, but purchase machinery available in Bombay.

~~The proposal for allotment of machinery for the purpose is recommended.~~

As.

This file contains an application from the Permina Straw Bd and Paper Mills Ltd, Koodbidri, S. Kanara, for

p 5 Cf the import of machinery from the U.K. for the manufacture

straw boards, card boards and like articles. The capacity of machine is estimated at six tons per day. The application has been Referred to the D.I.& C. for remarks which are awaited.

According to the draft report of the Panel on Paper, Board etc. the economic unit of a plant for the manufacture of only boards is 6000 tons per annum whereas the maximum Capacity of the plant proposed to be imported is only 6 tons per day i.e. less than 2000 tons per annum. It is also not known how the fuel problem will be solved. The remarks of the D.I.& C. will cover these points.

On receipt of the remarks the application will be examined thoroughly and submitted for orders

Secy. (C&W) has recommended the application

6/3/47

27/6/47 J.S. I do not think we can take the recommendations of the panel so literally as to rule out all concerns working to produce less than the panel's minima. In the list below (IV) the firm recommended are not the same for some production after consulting the paper Special-B. We need not therefore reject the present venture.

27/6

The position is as The draft below may now be approved.

No. 1943 K2/46 dated 17.3.47.

Sir,

Sub:- Companies- Purnia Straw Board and Paper Mills Ltd, Application for import of licence.

Ref:- Government Endt. No. 65277 P&D IV/46 1 dated 20.9.46 and Government letter No 65277 P&D IV/ 46-6 dated 7.[illegible] addressed to the Chief Controller of Imports, New Delhi.

.....

According to para 86 of the report of the paper panel, a factory producing 6,000 tons of ordinary types of boards such as straw boards, [illegible] has been considered to be an economic unit under Indian conditions and that existing factories below this capacity [illegible] be encouraged to expand their production to this figure. The production capacity of the Purnia Straw Board and Paper Mills Ltd, is given as 3 tons per day or 2,000 or 2,400 tons per year. They were requested to state their programme in the matter of raising the output to the level of 6000 tons per year and the time in which they anticipated that they could attain that objective. From the reply received from the firm (copy enclosed) it is evident that the firm proposes to establish a factory of 4 to 6 tons per day capacity and expand the same to the economic size in a period of 4 years.

It is also evident that the firm does not propose to import any machinery at present but purchase the machinery available in Bombay.
